LINCOLN
PARADE

Mark Hayes

Since 1921, Lincoln has been an icon of the American power elite. The Lincoln brand quickly became known for its unique comfort and luxury. Lincoln continues to capture the American spirit to this day with its world-class luxury vehicles and remains a leader in the American luxury automobile market. Unknown to most, Lincoln was started by Henry M. Leland, formerly from Barton, VT and the founder of Cadillac. The 1922 Lincoln Town Car, (shown below), was custom-built on the request of Henry Ford for use as his own personal vehicle.
